

## EVOLVE EVERYDAY

Evolve Everyday is made from 100% recycled fibre and has been specially developed to meet the requirements of environmentally aware organisations.

Evolve Everyday is an affordable, quality paper suitable for a range of everyday office tasks. Whether it is high volume printing and copying, internal communications, draft documents or faxes, Evolve Everyday will keep your organisation on the go.

All papers within the Evolve range have ColorLok® technology built in to improve print results on inkjet printers.
