

## YES COLOR COPY

Yes Color copy is a high white extra-smooth paper especially designed for digital colour printing. Thanks to its extra smooth surface and to its excellent sheet formation, the paper provides outstanding printing results and a very sharp reproduction of details. The high level of whiteness contributes to enhance the colours and delivers vivid pictures.

Yes Color copy performs remarkably well on all dry toner electrophotographic copiers and printers, including high speed colour digital printers.

Yes Color copy has attained FSC mixed sources certification.
