

## CANSON BARYTA PRESTIGE 340GSM

**Canson® Infinity Baryta Prestige 340gsm** is comprised of an acid-free alpha-cellulose and cotton white paper base with a true barium sulphate coating. It is a smooth Baryta Gloss paper which evokes the look and aesthetic feel of traditional darkroom papers.

The paper characteristics are truly unique: providing excellent durability, outstanding black optical density (D-max), and superb image sharpness. The paper offers a good level of flatness, excellent surface homogeneity, very good cuttability, and its printed and non-printed surfaces differ only very slightly in glossiness. It offers an extraordinary wide gamut which improves colour reproduction and increases visual impact.

**Canson® Infinity Baryta Prestige 340gsm** is an innovative product for the more discerning photographer and printmaker, whether creating black and white or colour archival prints.

### Technical Specifications

Weight:	340gsm
