

CANSON INFINITY® BARYTA PHOTOGRAPHIQUE II 310GSM - SATIN

The next generation of Baryta Photographique, offers photographers and printers the opportunity of creating a photograph with the true look and feel of a traditional darkroom print with improved handling and finishing characteristics.

Baryta Photographique II has a true 100% barium sulphate layer (baryta) which offers exceptional contrast and detail as well as a wide colour gamut. The product has an extremely high D-Max (black point) to produce black and white images with depth and clarity and colour images with vibrancy and intensity. The new generation product has a more structured surface aspect which is reminiscent of the traditional fibre-based darkroom papers and a fine satin finish.

With excellent handling characteristics, Baryta Photographique II can be used in a wide range of applications and is offered in sheets and rolls up to 60" wide.
